At DiproIT, I honed my expertise in ReactJS and ElectronJS, delivering robust and efficient software solutions. Beyond my professional role, I contributed to private and academic projects, showcasing versatility and a passion for continuous learning. Demonstrating strong problem-solving abilities, I optimized database queries, enhanced application performance, and ensured seamless user experiences. My proactive adoption of GitHub for version control highlights my commitment to efficient, collaborative development practice

SKILLS

- ReactJS
- Node.js
- ElectronJS
- Python Flask
- Bootstrap/Tailwind CSS
- Spring Boot
- GitHub
- MySQL

EXPERIENCE

Associate Software Engineer

DiproIT/Rajida Holdings, 128 3rd floor, High Level Rd, Nugegoda, Sri Lanka

August 2023 – Present

- Developed software and websites using ElectronJS and ReactJS for front-end, and Node.js, Python Flask, and Spring Boot for back-end.
- Managed databases, including MariaDB, SQLite, and MySQL, optimizing queries and ensuring efficient data handling.
- Utilized Bootstrap and Tailwind CSS for front-end styling in various projects.
- Deployed applications on Ubuntu servers and published projects on the Google Play Store.
- Gained experience with version control systems like GitHub and followed standard software engineering practices.

EDUCATION

BSc(Hons) in Computer Science Candidate

Informatics Institute of Technology, Colombo, Sri Lanka

Expected Graduation July 2026

Certifications

- Object Oriented Programming - LinkedIn
- React.js Essential Training - LinkedIn
- Python Essential Training - LinkedIn
- Open hack 2.0 - Hackathon
- CodeSpring 7.0 - Hackathon
- Haxmas 2023 - Hackathon
